

Consumer Advocate Issue Assessment Worksheet

Identify the specific policy issue:

What will it do?

Who is the sponsor? (This could be a city councilor, a department head, a committee member, or something coming from an outside individual or group):

What is the contact information for this person?

Where is the issue in the decision-making process? What committee or department is working on it? Has it had a public hearing?

How would it impact Realtors®/property rights/homeowners?

Is the issue coming from a credible person or group?

Does it have a realistic chance of passage?
